

# Infrastructure Network for Water Workshop Series

Mr. Michael F. Molnar,  
NIST Chief Manufacturing Officer

Mike Molnar is the founding director of the Office of Advanced Manufacturing (OAM) at the National Institute of Standards and Technology (NIST). In this capacity he is responsible for NIST extramural advanced manufacturing programs and liaison to industry and academia. Mike is also the founding director of the Advanced Manufacturing National Program Office (AMNPO), an interagency team with core staff hosted at NIST. This interagency team works to coordinate federal activities in advanced manufacturing, and is the Congressionally designated National Program Office for Manufacturing USA – the National Network for Manufacturing Innovation.

## Manufacturing USA – progress and lessons in establishing Public-Private Partnerships

**May 12, 2017**

We cordially invite you to join us for this program dedicated to developing an effective science-to-practice network addressing urban infrastructure. During this three part workshop series, we will be exploring other successful science-to-practice networks as we consider a model and framework for this emerging state and national urban water network.

This is the first program in our series. For additional information visit <http://urcmich.org/partners/in-water/>.

McGregor Memorial Conference Center  
495 Gilmour Mall, Detroit, MI 48202

**9:00AM - 10:00AM**

Open to the public

**NIST** National Institute of  
Standards and Technology  
U.S. Department of Commerce
